

Your Unique Passcode

At the time of your exam you should have been given a card with instructions for your unique password

Your password/passcode consists of

- Your first name (first letter capital)
- Your **year** of birth (4 digits)
- **Exam** month (2 digits, month your **exam** was done in)
- **Exam** day (2 digits, day your **exam** was done on)

NameYYYYMMDD

Example: Jane comes for her mammogram on September 12th, her year of birth is 1933.

Her password would be **Jane19330912**

Example: Mary Ann comes for her mammogram on February 8th, her year of birth is 1945.

Her password would be **Mary Ann19450208** (space between Mary and Ann)

- Your first name was entered into our system either from your Driver's license/State ID or your Insurance ID.
- In the salutation of your email is how we have your first name spelled and should be typed this way for your password.

Dear Jane,

The results of your recent breast imaging exam(s) are now available and are attached to this email. Please open the PDF attached to this email using your unique pass code to view your results.

***** Please remember you must have an updated version of Adobe reader installed to open your letter. At the bottom of your email there are some links to follow to install a free version of Adobe on your device.**
